

I count my blessings

He gave me a voice to pray, He gave me the faith to stay
He's giving me light that lights up my life

He gave me a heart to feel, His working on me is real
He's giving me love coming down from above

So I count my blessings name them one by one
Yes I count my blessings see what God has done
Yes I count my blessings and I feel surprised
Cause I found so many blessings
I found so many blessings in my life.

He gave up his life for me, His mercy has set me free
He will give me a place at the end of the days.

Come down. Take a break. Count the blessings in your life
Take a break. Count your many blessings
Take a break and count your blessings... take a break
