

## Jesus Majesty

Jesus, Jesus Majesty take this song up high!  
May this melody bring You joy! May this song reach to the sky!  
All the wondrous works declare that You are the King!  
How You can restore a life! You are our ev'rything!

I was about to run far away. But You were following me!  
You were patient all the way! And You got me on my knees!

I was about to leave this world for no solution cometh my way.  
Hold on my daughter. He called out my name and told me to obey.

I was about to quit talking with Him because I thought that God lost  
control  
But day after day He took me out of the pit; Time after time He's made me whole
