

## Let us stand hand in hand

1. In her eyes you see her pain  
you don't even know her name.  
you turn away can't face the shame

2. In her eyes, you see her cries,  
you don't know, that something dies  
inside of her can't take the lies.

No one seems to care  
No one sees her/him there  
What if you and I stood as one  
Together we are strong

Let us stand hand in hand. Let us change the world  
What if we could touch just one life.  
Then you will see the change that love can make.

3. In the night, you see his face  
he has tried, but lost the race  
you turn away stealing his grace

4. In his eyes, you see the lies  
you don't know that's why he tries  
to hide his face can't take the cries.
