

We will stay

-
1. Promises broken
Empty words spoken
Now we are here to say
Chains will be broken
Life will be spoken
Cause we are here to stay

We will stay with you, you're not alone
We will see you through, don't cry alone
We will change the world, we've just begun

2. God is with us, we'll overcome
Promises spoken
That won't be broken
God is with us, my friend
A new beginning
Heaven is singing
Now you can dream again
